NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

A week or two ago we mentioned in this column the need for a summer recreation program for Hamlin. Since that time we have been asked what such a program would include and have found that they usually include whatever you have facilities or instructors for.

In checking we found that the Anson program, which is under the supervision of Coach George Hopper, includes swimming, cheerleading, twirling, track and field events, tennis, weight training, volleyball, basketball, a charm course and reading.

In Stamford, where Coach Charlie Smith is in charge of the program, they will have tennis, track and field, basketball, softball, boxing and swimming. The Stamford program started June 1 and will continue through July 24.

It would be a great thing if either the city or the school system could take on a project such as this but this doesn't seem to be the year for either one of them to add to their budgets. The school will have a hard time meeting the expense of the teacher pay raises set up by the state and the city is still trying to get over the cost of the new garbage program and must buy a new fire truck in the near future.

While we would much prefer that a tax supported organization operate a recreation program that would be designed for all of the youth of the community we can see that at the present time this is not likely.

What we would like to see under the circumstances would be for the Lions Club to sponsor such a program. While the Jaycees have a better record of getting things done on a scale such as this we suspect that right now they may have more projects than they can take care of.

The Lions have enough members and should have enough interest in the youth of the community to take a project such as this and make it go.

We would like to see the summer baseball program come under the same supervision as the rest of the summer program. We suspect that this would help both programs and at the same time the money now being collected would go a long way on a more general program for everyone.

We do not have much hope of getting a program such as this off the ground this year but believe if we are to ever have a summer program the work should start now.

It just kinda chaps us to think that both Stamford and Anson can do something for their young people besides just a baseball program and we can't.

Here's a thought we ran across the other day. If you really get fed up with the way our U. S. Senate acts sometimes you might think about how we could change the whole balance of the Senate by exercising our right as a state. If you remember your history you know that at any time Texas can become five states instead of one.

This would of course mean that we could send ten men to the Senate instead of just the two we are now sending. Boy, that should shake up those yankees.

Of course it might create more problems here at home than we could handle but it is a nice thought to contemplate on every so often when you wonder whether the Senate is really part of our government or if it is representing some foreign power.

Sometime even the U. N. makes more sense than our Senate.

School Board - Hires Teacher, Sets Tax Rate

In action taken by the Hamlin Board of Education, Monday evening, the resignation of Mrs. L. R. Fowler was received and Mrs. Warren (Evelyn) Sharp was hired to fill that vacancy.

Mrs. Sharp, received her bachelor and masters degrees in education from North Texas University. She has a double major, business administration and English. She has taught nine years in Nocona and the past semester in Aspermont.

Her husband is employed by Continental Oil Company.

In other action, the board set the tax rate the same as last year — \$1.50 for maintenance and .35 for bond retirement.

Supt. C. F. Cook said Tuesday that the board does not anticipate any increase in tax evaluation.

A brush and pricklypear control demonstration will be held on the T. F. Davis farm one mile north of Funston on Farm Road 1226 at 9:30 a.m. on Friday, June 12th, according to an announcement this week by County Agent Kirby Clayton.

Dr. Roy Miller, Range and Brush Control Specialist from Texas A&M Extension Service, will be on hand to discuss and demonstrate the use of Tordon and some of the newer chemicals for brush control work.

All interested farmers and ranchers are invited to attend.

men delivered the aircraft to the U. S. Air Forces Southern Command which protects the Panama Canal Zone and southern approaches to the continental United States.

The ferry flight climaxed two months of testing the new aerial refueling system which enables small jet fighter-aircraft to fly long distances non-stop.

The tests were conducted at Elgin by Captain Drummond's unit which is capable of flying special A-37 missions anywhere in the world. He is a member of the 603rd Special Operations Squadron, a part of the Tactical Air Command which provides combat units for air support of U. S. ground forces.

Capt. Jack Drummond Takes Part In Two Aviation 'Firsts'

BALBOA, C. Z. — U. S. Air Force Captain Jack W. Drummond, son of Mr. and Mrs. G. W. Drummond of 130 S. W. Avenue D, recently participated in two aviation "firsts".

Captain Drummond piloted one of five new Cessna-built A-37B fighter bombers 1,400 miles from Elgin AFB, Fla., to Howard AFB, C. Z.

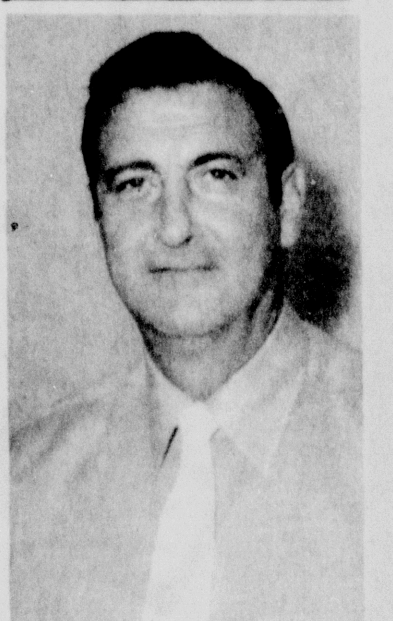

During this first non-stop A-37 flight to Howard, the first aerial refueling of A-37s during an operation mission was accomplished. The five factory-fresh fighters were refueled by KC-97 Stratofighters during the six-hour flight.

The captain and his wing-

ning from 20 to 40 bushels per acre.

A more than usual amount of equipment and men were on hand for the harvest here when the weather broke and this accounts for the short season, Fowler added. He said that the elevator was unloading a truck about every eight minutes when they were in full swing.

Moore Elevator was notified that the first two cars of wheat to arrive in Fort Worth were shipped by Moore's.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(June 12, 1925)

Recently, when Mr. and Mrs. Tate May attended the Banker's Convention in Houston, they visited the big sugar refineries at Sugar Land. So huge and wonderful are these refineries that Tate came back with a most startling report of the amount of sugar they put out every day, "Down in Texas." He says one can hardly believe it, and sure enough when the number of hundreds and hundreds of thousands of pounds he says they put out everyday was told, we could hardly believe it, and Tate says, better not tell how much. He wanted to have it a million or billion or somewhere up in the clouds. So we will not attempt to tell that part of this story. What we are "hittin' at" is that the more Texas people know of Texas territory, Texas products and industries and Texas soil, with its wonderful manufacturing and agricultural possibilities, the more we shall see what Texas really is. It is nothing uncommon for a Texan to exclaim with astonishment at the greatness of things he discovers as he runs onto them in his travels. Tate May, like most of us, thought of Cuba, Louisiana and other places as sugar land, not dreaming that "down in Texas" they produce it in quantities so great that his friends could hardly believe him as to the millions of pounds per day or week. Each day, almost, Texas forges to the head of the list in production, on some line. Yet we are still in our mere infancy, Imperial Texas, with her imperial products and among the list of "imperialists" is the Imperial Sugar of Sugar Land, Tate favored the Herald man with a package to prove that they really produce "sweet stuff" down in Texas. We plead guilty. We are like Mr. May, every time we see a new part of Texas, or visit a section, after a few years, we are startled with what we have done and with what progress we are making. Let's see TEXAS "FIRST."

TWENTY YEARS AGO
(June 9, 1950)

Announcement was made in Hamlin this week of the formation of Prewit Motor Company, as successor of Irwin Motor Company's authorized Chrysler-Plymouth dealers.

Under terms of the transaction, Prewit has purchased the franchise of Irwin and has leased the premises on East Lake Drive for the operation of the automobile sales agency.

Gene Prewit, member of a Stamford family which has been long engaged in handling Chrysler products, will be in active charge of the local organization and Irwin will function as general sales manager. Under the new ownership an up-to-date service department has been installed and Clyde Riley and Andy Gardner are engaged in this depart-

ment. Horace Lee Prewit will be in charge of the parts department.

Prewit informed The Herald that immediate receipt of new cars is scheduled and all models will be included in their stock.

Tentative plans call for an enlargement of the present quarters of the firm in which the building will be extended southward. After enlargement has been completed a large stock of tires will be made available to the public.

Prewit is now negotiating for sale of his home in Stamford and will move to Hamlin when satisfactory arrangements have been made.

TEN YEARS AGO
(June 9, 1960)

In a very light vote, A. J. French won the nomination for Jones County tax assessor-collector over Larry L. Holmes in the Second Primary held on Saturday.

In the only other race on the ballot, Jones County voters went for Lloyd W. Davidson for Judge, Court of Criminal Appeals.

French of the Tuxedo community polled 895 votes for the County of five, while Holmes polled 746 votes. French will succeed Miss Ima B. Dougherty who did not seek re-election.

Davidson had 790 votes in Jones County to W. T. McDonald's 686.

Forty-six students of Hamlin High School are engaged in summer projects in homemaking says Mrs. James E. Simmons, instructor in homemaking in the high school.

These girls carry out projects in various phases such as care and guidance of children, consumer buying, family relations, home care of the sick, home improvement, home management, laundry, personal care and improvement, provision of food for the family including food preservation and clothing.

They must complete enough work to equal the work spent in class one semester and they earn 1/2 unit of credit toward graduation.

These projects are guided by Mrs. Simmons and by each girl's family.

Students participating are: Dotty Albritton, Joyce Bingham, Jolene Bonds, Stella Brown, Charlotte Burleson, Tanya Cranford, Julie Daniel, Mickie Douglass, Penny Ford, Dorothy Gray, Lou Ann Hawkins, Ann Hymer, Sandra Jayroe, Gloria Jenkins, Jeanette Jenkins, Kay Johnson, Margaret Maberry, Betty Robertson, Mary Debs Rountree, Nancy Stinnette, Sunny Teague, Arlene Waldon, Legena Weaver, Wilma Welch, Wynell Williams, Dixie Daniels, Lucille Decker, Linda Farmer, Pat Green, Veleeta Hastings, Martha Jordan, Darlene Josey, Carolyn Ray, Mary Smith, Neilda Stone, Precilla Trotter, Odean West, Janice Wigus, LaVerne Williams, Charlene Berry and Janice Richardson.

Neinda Philosopher Twits Cities and Towns Disappointed Over Their Low Census Figures

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reacts to the census figures this week.

Dear editor: I'm not sure you're supposed to worry about such things in the face of far graver issues around the globe, but according to an article I read in a newspaper last night a lot of towns and cities are hopping mad over the census figures now coming out.

They're mad because the figures are lower than they'd expected. Here they'd been thinking they'd been getting bigger all the time and when the figures came out some towns believed they'd jumped from say 10,000 to 12 or 15 thousand found they were still 10,000, and some cities thinking they'd passed the quarter-million figure found they were a measly 200,000. Some of them want a re-count.

I don't understand this. The average city like it is can't afford all the police, firemen, schools, paved streets, parks and other things it needs,

and yet here it is hollering for more people it can't extend sewer lines to. It's like a man with seven children, the last two of them barefooted, hoping for still a bigger family.

Now I'm not saying the smaller a town is the fewer problems it has, but you've got to remember that the biggest city in this country certainly has the biggest problems. Ask Mayor Lindsey.

Or take Los Angeles. Why would a city with so many people and so many cars now

On Honor Roll

Mrs. Don Lock formerly of Hamlin has been named to the Dean's Honor Roll at Angelo State University, San Angelo, for the 1970 spring semester.

Mrs. Locke formerly Bennie Elkins Lock, will receive a B. S. degree in elementary education with special education certification in August. Daughter of Mrs. W. B. Elkins and the late Mr. Elkins, she was formerly a telephone operator in Hamlin.

there's not enough air to breathe and no place to fall if you faint, want to increase its population? It's like a fat man trying to gain weight an under-staffed hospital asking for more patients.

Now you take the area surrounding this Johnson grass farm. We haven't increased our population in years. We saw long ago that if we couldn't improve the quality, at least try to hold down the quantity.

Yours faithfully,
J. A.

Auto Theft Odds

Do you lock your car and remove the keys whenever you leave it unattended? The Insurance Information Institute notes that, on the average, one out of every 102 cars registered in the United States was stolen in 1969.

It Takes a Lot to Satisfy

A HEALTHY APPETITE

Anyone that has ever tried to fill the bottomless pits of growing boys will tell you that it is practically an impossibility. Yet we must continue to feed them so that they will continue to grow.

With the right kind of encouragement from parents, these boys will develop a hunger for God's word. Take them to church Sunday where they may study and learn more of God's word.

"Blessed are they which do hunger and thirst after righteousness: for they shall be filled."

Coleman Adv. Serv.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

AUSTIN, — Search for treasure off Padre Island will continue in a big way this summer.

Texas Antiquities Committee granted a reconnaissance permit to the Institute for Underwater Research Inc. to pinpoint locations of additional 16th century Spanish galleons believed to have sunk in Padre area waters.

A grant survey, using geophysical detection devices and scuba divers, may serve as the basis for a state master plan for protection, study and possible future excavation of submerged historic sites.

State agencies, including the Land Office and major universities, will cooperate. Antiquities Committee granted \$3,000 to assist Underwater Research, a non-profit corporation financed with private foundation funds.

"It sounds good to me," commented Land Commissioner Jerry Sadler, storm center of the controversy over disposition of treasure recovered from an ancient Spanish galleon off Padre in 1967.

Antiquities Committee Chairman Dr. Fred Wendorf said there is good historical evidence that a fleet of Spanish ships was wrecked along the Texas coast in 1553. Committee, Dr. Wendorf emphasized, wants to prevent future looting by profit seekers and to preserve remaining ships so that historic data and artifacts may be retained by the state.

Committee also put up \$6,000 to hire graduate students to compile inventory of major archeological land sites in Texas. Inventory would enable sites to be nominated to National Register of Historic Places and gain some protection from future destruction. Wendorf, meanwhile, issued a new statement telling amateur hunters, collectors and beachcombers not to think the Committee is spoiling their fun.

Committee permits are required to dig on state or public land. But activities on private lands are covered only where property is declared a State archeological

landmark, and so far none has been so identified.

SCHOOLS TROUBLED — Spokesmen for large, small and medium-sized school districts told a special committee they face dire financial problems.

Big city districts urged a more equitable formula for dispensing state aid.

"Small districts have twice as much taxable wealth per student and receive 13 percent more state aid per student," said Dr. Marvin H. Berkeley, Dallas Independent School District President.

Eighteen-member committee headed by veteran Sen. A. M. Aikin Jr. of Paris was authorized by the last Legislature to study the financial relationship between state and local districts and examine structure of current economic index for schools. In its first session the Committee heard financial woes of Dallas, Ft. Worth, San Antonio, New Braunfels and Lumberton school districts.

WELFARE COST SOARING — Predictions about cost to Texas taxpayers of new federal welfare legislation get steadily more alarming. Senate welfare reform committee was told by its staff chief, Dr. June Hyer, that bills before Congress would increase state spending for medical care of needy by \$252 million to \$293 million during the next two and a half years.

Welfare Commissioner Burton Hackney said assistance programs can be maintained at present levels until July 1, 1971, only if the Legislature boosts welfare appropriations to a ceiling of \$80 million in January. Hackney also saw a chance of getting \$8 million in emergency funds through rejiggering procedures for purchasing medicines.

INSURANCE HEARING SLATED — State Board of Insurance announced investment income of insurance companies writing auto coverage in Texas and its effect on rates will be the major subject of a special hearing on July 14-15. Main hearing on statewide

automobile rates is tentatively set for August 17. Board promised study and review of the entire rating formula.

AG RULES — Atty. Gen. Crawford Martin slapped down Texas Water Development Board's plan to commit itself to the purchase of political subdivision bonds in the future, subject to availability of the funds at marketable interest rates.

At the same time, Martin held constitutional a 1969 statute aimed at authorizing political subdivisions to purchase water development board bonds and sell them at a discount. Opinion put the Board out of water project aid business for the time being.

Martin also upheld the constitutionality of the new destination franchise tax on out-of-state firms selling products in Texas, but said it can't be collected on strictly-mail order business.

In other recent opinions, Martin concluded that:

County judge cannot grant misdemeanor probation to anyone who has received probationary sentence during the preceding five-year period.

Cottonseed in physical possession of Valley Co-op Mill in Cameron County on January 1 is exempt from property taxes.

In a county having only a single jail facility, it must be at the county seat.

County commissioners, by unanimous consent, may allow temporary flooding of a county road if a suitable alternate route is provided.

State Board of Health may not by rules expand the amount of equipment to be carried by ambulance, but may define minimum contents of first-aid kits.

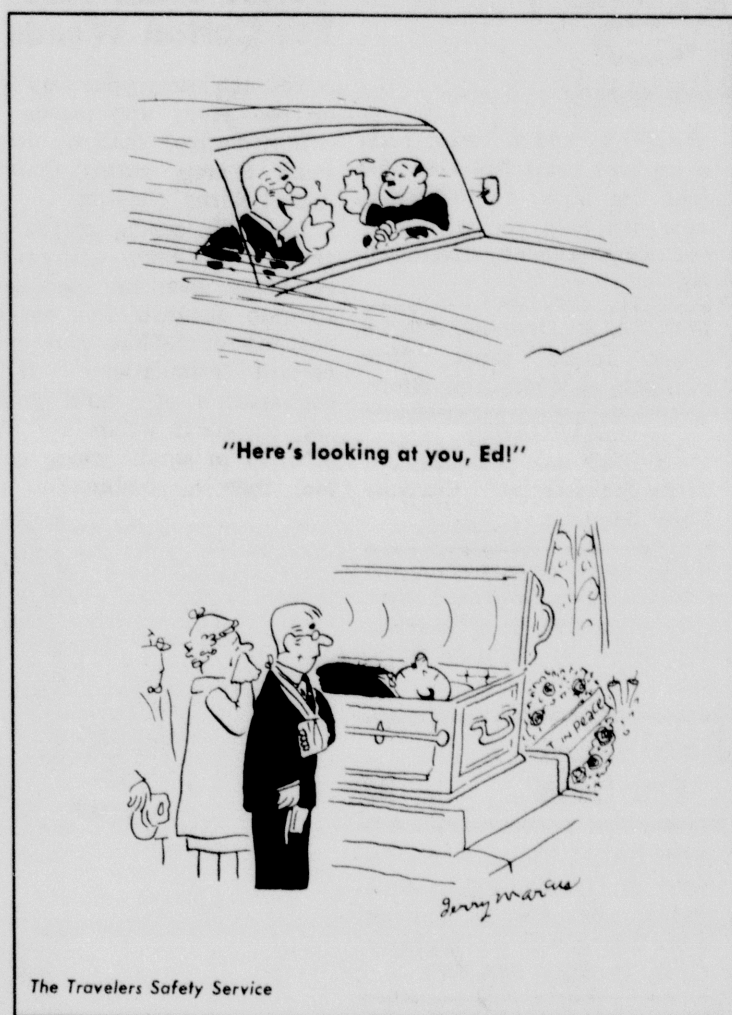

Purchases under \$2,000 may be subsequently ratified at the county commissioners meeting.

Board of Examiners in Fitting and Dispensing of Hearing Aids can require recording of air serial numbers on the bill of sale. Any person who can pass the exam or qualifies under the "grandfather clause" or reciprocity provisions is entitled to a license to fit and dispense hearing aids.

Lump sum payment in addition to monthly pension can be paid to a retired fireman or survivor if additional payment was adopted at the time he was an active fulltime fireman or prior to that time.

Agent Says Spray Better Than Hoe For Cotton Weeds

You can spray your way out of the grass and weeds in cotton cheaper than by using hand hoeing, states County Agent Kirby Clayton.

In small, young cotton — three inches high — if grasses alone are the problem, Clayton suggests the use of naphtha or DSMA plus surfactant formulations. If a combination of both grass and broadleaf weeds are the problem in small, young cotton, then a combination of

DSMA plus Cotoran plus surfactant is suggested.

After cotton is larger and is six to eight inches tall, the continued use of Cotoran plus DSMA plus surfactant is recommended. Also, notes Clayton, a number of other materials can be used with DSMA plus surfactant. These include Diuron, Hervan, or Caparol.

The agent emphasizes that any tough grass and weed control situation can be handled without expensive hand hoeing.

He suggests that a copy of B-1029, "Suggestions for Weeds Control with Chemi-

cals," be obtained from the local county agent. He emphasizes that container labels should be read and carefully followed when chemicals are being used for any purpose, including grass and weed control.

Visitors in the home of Mr. and Mrs. Bob Craig and family Friday were her parents, Mr. and Mrs. T. P. Fincher of Albany, and her brother and family, Major and Mrs. E. D. Fincher, Mike and Mitch of Mountain Home, Idaho.

NEWS FROM...

Sylvester

By MRS. R. M. BABB

It is cool and nice this Monday morning. Most of the wheat has been combined and some of the cotton has been replanted so every body is busy.

Our latest report on Thurman Douglas is that he is a little improved but at this point the least improvement is wonderful. He is still a very sick man having suffered a severe heart attack last Thursday. He is in Hamlin hospital.

Mr. George Hood has been moved from Hamlin hospital to the nursing home in Roby. Mrs. Ray Barrington of Graham visited with her aunt, Mrs. May Hurst one afternoon last week.

Mr. and Mrs. Gordon Davis were gone the entire weekend just seeing the beautiful country side and realizing just how pretty our state of Texas really is.

Mrs. John Tankersley and Mrs. Delia Beard are visiting here with relatives, Miss Pearl Johnson, Mrs. E. P. Harris and Ernest Kiser.

Mr. and Mrs. Henry Edwards of Wichita Falls spent Sunday night in the R. M. Babb home.

Bro. and Mrs. I. N. Snow, Area Missionary of Gulf Coast Area stopped and visited in the Babb home last Friday on their way home after attending the Southern Baptist Convention in Denver, Colo. The Snows live in West Columbia.

Mrs. Ruth Brown is attending the Postal Convention in Brownwood this week.

Cliff Early's twin brother and wife from California has visited with his brothers and sister this past week.

Mr. and Mrs. Waldo Gatewood are excited over that brand new grandson. He is the second son for Joan and Mike Terry of Roby.

A wonderful day was reported last Saturday at the Cemetery working and Old Settlers Reunion in the Newman Community.

Mr. and Mrs. R. M. Babb enjoyed the 50th Anniversary of the El Paso Baptist Church southwest of Roby on Sunday. Some four or five former Pastors were present and spoke on the program.

Mrs. Floyce Campbell, sister of Mrs. Glenna Ray Turner visited with her one day this past week.

Mrs. Gene Currid of Merten and Mrs. E. L. Porter of Roscoe drove over on Sunday and took their parents to the Newman Reunion.

Ray Hale drove out from Ft. Worth to attend the Newman Reunion.

Mrs. M. D. Douglass is spending some time in the home of Mrs. Elsie Moffett of Hamlin.

Welcome to the new Methodist pastor, Rev. Homer Salley, we hope he will like all of us.

Sorry, I guess the pony express was too slow last week maybe it will get there this time.

(From Last Week)

It is very, very wet this morning, since last Monday we have had 5.15 inches of rain with 3.50 falling last night, kinda rough on the wheat farmers as they were really working to get the wheat combined. North east of town one mile it rained 4 inches.

The Pete Perales family are enjoying a visit with their daughter, Connie and family of San Antonio, also their daughter-in-law, Mary, and her son they are from San Antonio also.

Rev. and Mrs. W. R. Petty drove to Lubbock Friday and returned Sunday night.

The W. B. Brown family and the R. M. Babb family drove to Sweetwater Saturday night to watch the Brown's grandsons, Ricky and Jackie Prather, play baseball.

The Mehaffey family of Brazoria, Tex., are visiting in the F. E. Meek home.

Visiting in the Richard Kelly home are two daughters of Mr. and Mrs. Alton Clem of Irving and Regina Kelly, daughter of Don Kelly. I believe the girls plan on attending Vacation Bible School at the Baptist Church.

Gil Lain of Hamlin filled the pulpit in the Baptist Church both services on Sunday.

Orville Cox filled the pulpit on Sunday morning at the Methodist Church.

Mrs. Ezell Whitten of Hamlin and Mrs. May Hurst of Sylvester drove to Trent Sunday afternoon and visited with the Bill Watson family in their new home. They came back to the new home of Mr. and Mrs. Jim Lanning and spent some time with them.

Mr. and Mrs. M. D. Brown had most of their six daughters and families visiting with them.

Granddaughter

Mr. and Mrs. Bobby Bingham of Sweetwater are parents of a daughter, Stephany Lea, born June 2. She weighed 7 lbs. 6½ oz.

Grandparents are Mr. and Mrs. C. D. Bingham, Rt. 1, Hamlin, and Mr. and Mrs. Earl Jones of Sweetwater. Mrs. Lillie Whittenburg of Hamlin is the great-grandmother.

Mrs. W. L. Meeks visited last week in the home of her daughter and family, Mr. and Mrs. L. S. Skaggs in Fort Worth.

Institute Offers Power Mower Tips

Don't let that power mower become a liability this summer, home owners were cautioned today.

The Insurance Information Institute noted that many injuries are recorded each year because of careless operating errors that can and should be avoided — cleaning or lifting the machine while it is running, walking backwards while pulling the mower, or for some reason touching the blade before it is stopped.

"Such incidents are easy to prevent, just by being careful," the Institute observed. "But for your own safety and for the safety of others, there is another factor to be kept in mind — that the lawn should be raked free of stones and debris before you start."

Noting that a stone or branch thrown by a power mower can injure another person or even damage his property, the Institute pointed out that within limits any financial obligations which might accrue are covered under the homeowners insurance policy. Homeowners or tenants who do not have such a policy were advised to check with their insurance agent or broker about obtaining coverage in some other form.

Jan Albritton Gets Degree from Baylor

Jan Albritton was among the 840 to receive degrees at the 125th anniversary commencement May 29 at Baylor University, Waco.

Miss Albritton, daughter of Mr. and Mrs. Henry Albritton received a bachelor of music education.

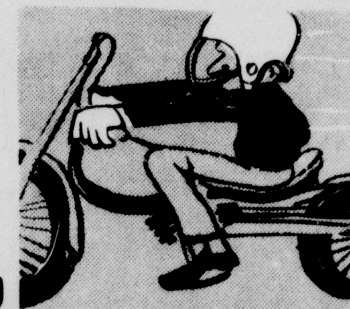

THE FAMILY LAWYER

Protecting You From Yourself

Strange as it may seem, the motorcycle helmet has become the center of a raging constitutional debate. It came about in the following manner:

A number of states, worried about the soaring rate of motorcycle accidents, have passed laws requiring every rider to wear a helmet. However, these laws are being challenged on the ground that the government cannot force a person — just because it is good for him — to do something he doesn't want to do.

Of course, the government does have a right, under the "police power," to step in when there is danger to others as well. Thus,

compulsory vaccination was held constitutional long ago because the disease may endanger not only the person himself but also others in the community.

But in the case of motorcycle helmets, the primary purpose is not to protect somebody else but to protect the motorcyclist from his own negligence. That is, the government is trying to protect him from himself.

So far, a few courts have held the helmet requirement to be unconstitutional, on the theory that the individual should be "master of his fate and captain of his soul." As one opponent put it, if the government can go this far, it could just as logically require everybody to be in bed by 10 p.m.

On the other hand, a majority of courts have held these laws valid. They argue that there is at least some benefit to others, because a helmetless rider, if struck by bugs or flying pebbles, may lose control of his motorcycle and cause a collision.

Besides, they add, some safeguarding of the individual is justified, because if he is injured, he (or his family) may become a public burden.

"It is to the interest of the state," said one court, "to have strong, robust, healthy citizens."

Of course, not all motorcyclists are concerned about the fine points of constitutional law. However, they all might take note of a harsh statistical fact: the vast majority of motorcycle deaths are the result of injuries to the head.

Go Modern—Go Camping

Camping isn't the rough-and-ready sport it used to be.

Today's improvements in camping equipment have made outdoor vacationing comfortable and inviting. Moreover, basic camping gear is versatile, durable, and doesn't cost a fortune to buy.

Just remember: the secret is to keep it simple—it's hard to relax with a lot of gadgets.

To get the utmost enjoyment from the sound of rushing mountain streams or the taste of freshly-picked huckleberries, get squared away first on basic equipment and those extras you really need.

Besides the family car, a tent is the "must" item. If you haven't paid attention to tents lately, you're in for some surprises. The old stand-by types that took two men and a boy to put up are gone. So are the drab, windowless, stuffy tents that offered little more than plain shelter.

Now tents offer new window and door designs, easier han-

dling, and greater protection from sun, rain, and insects. They can be pitched in a matter of minutes and come in all sorts of colors—chestnut, green, sun gold, silver blue, and red.

Nearly all tents are made of cotton fabrics, generally known as canvas. Cotton canvas is favored because it permits air to circulate freely throughout the tent. This insures comfort and prevents moisture from forming and dripping down inside.

Cotton canvas also withstands lashing winds and rain, and actually gains 25 percent in strength when wet. Special finishes give it even greater resistance to the elements.

Besides a car and a tent, you'll need cooking and sleeping equipment. Then you can add such accessories as knapsacks, portable refrigerator, folding bathtub, binoculars, etc.

Take only what you need and you'll have a grand time as a modern pioneer-camping family.

Rev. John Holland Receives Added Duties With Church

Rev. John Holland, pastor of the Kingsway Foursquare Church in Vancouver, SW B. C., Canada, has been appointed Supervisor of the Western Canada District and the Executive Director of the L. I. F. E. Bible College of Canada in addition to his present responsibilities.

His appointment was announced following the International Convention.

Rev. Holland, son of Mrs. J. R. Holland and the late Mr. Holland, is a former pastor of the Foursquare Church here.

He and his wife have pastored the Kingsway Church for the past six years. They have four children, Brad, 16, Jan, 13, Bart, 10 and Jodi, 1.

Mrs. H. E. Sharer was guest Sunday for lunch in the home of her son and wife, Mr. and Mrs. Herman Sharer.

News deadline is noon Tues.

Two from Here Join 875 Others At Boys State

Charlie Sellers and Darrell Craig are among 787 boys from Texas attending the thirtieth annual American Legion Boys State. Sponsored by the Department of Texas and held on the Campus of the University of Texas, Boys State began Sunday and will continue through the week.

In Boys State, The American Legion provides the type of program where the young citizen has the opportunity to learn for himself how the

government functions.

Boys are assigned to political parties and run for city, county and state offices.

Sellers and Craig are sponsored by the Stamford American Legion.

OLD GLORY

Mr. and Mrs. James Newman and family of Monahans were here last weekend visiting his parents, Mr. and Mrs. J. S. Newman. Other guests in the Newman home are Randy and Tim Newman of Amarillo.
